

USC® Garage™ Pouches are your premier single-use solution in the body repair and refinish category, used by DIYers and pros alike. Never before has there been a more broad selection of top-of-the-line fillers and glazes. From dents and small repairs on aluminum, steel and fiberglass to repairs around the home on wood, metal and plastics. No matter what the need, USC® Garage™ has you covered.

## MULTI-PURPOSE FILLER 77701

### VERSATILE APPLICATION

USC® Garage™ Multi-Purpose Filler is a general purpose filler used for repairing everything from wood and cement to metal. Works great for small repairs on cars or around the home.

## SMC/FIBERGLASS FILLER 77702

### REINFORCING FIBERS

USC® Garage™ SMC/Fiberglass Filler is a waterproof filler, structurally rated to repair sheet molding compound and works on fiberglass. It's also easier to sand than conventional fiberglass fillers.

## FINAL FINISH GLAZE 77703

### FINAL FINISH

USC® Garage™ Final Finish Glaze has an ultra-smooth finish, holds up to 47% better on aluminum and steel than the leading competitors, and is very easy to sand. The perfect final-step solution for any project.

## FLEXIBLE GLAZE 77704

### BUMPER REPAIR

USC® Garage™ Flexible Glaze has a smooth finish with superior adhesion and resilience when used on flexible and rigid bumpers as well as other plastics.

## 2-IN-1 FILLER/FINISHER 77705

### FIX & FINISH

USC® Garage™ 2-In-1 Filler/Finisher is a lightweight filler and glaze combined that allows you to eliminate the glazing putty step. Ideal for scratches, dents and small repairs, 2-In-1 Filler/Finisher is easy to sand and has superior leveling for an excellent finish.

## METAL GRIP FILLER 77706

### MAXIMUM ADHESION

USC® Garage™ Metal Grip Filler has an extra high adhesion that holds up to 33% better on aluminum and steel than the leading competitor. Also for use on fiberglass and wood.
